Descriptive Entry

This accession consists of 6 YouTube accounts from across the Smithsonian Institution. The accounts were crawled between January 5 and September 27, 2017. YouTube is a video-sharing service that many museums, research centers, and programmatic offices use for disseminating informational, educational, and promotional videos. Due to technical issues, this accession does not include every video that was available on each of the accounts at the time that they were captured and some features may not function as expected. Some accounts were crawled in multiple parts. Materials are in electronic format.
