Administrative Information

Preferred Citation

Smithsonian Institution Archives, Accession 20-091, National Postal Museum, Website Records

Descriptive Entry

This accession consists of National Postal Museum web content before and after a redesign and relaunch in December 2019. The website includes information about the museum and its exhibitions, collections, research, events, and educational resources. A National Postal Museum blog, launched in July 2016, existed as a separate entity prior to the redesign, but was then incorporated into the website itself. Detailed collection information is not included in this accession. This accession includes separate crawls of the website and blog on December 10, 2019, a few days before the relaunch, and a crawl of the redesigned website on January 7, 2020. Server files for the older website are also included. Due to technical issues, some content is missing from this accession. Materials are in electronic format.
