Descriptive Entry

This accession consists of 29 YouTube accounts maintained by units throughout the Smithsonian Institution. The accounts were crawled between March 5 and August 16, 2019, but may contain significantly older content. YouTube is a video-sharing service that many museums, research centers, and programmatic offices use for disseminating informational, educational, and promotional videos. Some of the accounts were crawled twice, once focusing on the account in general and once focusing on the videos. Due to technical issues, some content may be missing and some features may not function as expected. Materials are in electronic format.
