## Administrative Information

### Preferred Citation

Smithsonian Institution Archives, Accession 22-004, National Museum of Natural History, Website Records

---

## Descriptive Entry

This accession consists of the National Museum of Natural History's collection search website as it existed on February 21, 2020. This website allows the public to search collections maintained by the Department of Anthropology, the Department of Botany, the Department of Entomology, the Department of Invertebrate Zoology, the Department of Mineral Sciences, the Department of Paleobiology, and the Department of Vertebrate Zoology, including the Division of Fishes, the Division of Amphibians and Reptiles, the Division of Birds, and the Division of Mammals. Searches query the museum's central collection management system. This accession includes the introductory and explanatory pages as well as the search screens, but includes very little of the underlying collection data. Materials are in electronic format.

---

## Names and Subject Terms
