Smithsonian Institution Archives, Accession 22-044, Smithsonian Facilities, Website Records

Descriptive Entry

This accession documents the renovation of the Arts and Industries Building. Between 2011 and 2014, a live video feed of the construction project was broadcast via the EarthCam Network's website and also recorded. The recordings were later used to create two time-lapse videos - one from the perspective of each camera - which were also hosted on the EarthCam Network website. This accession consists of ten screenshots from each of the two videos, captured as .pdf files on November 20, 2019. Materials are in electronic format.
