Collection Overview

Repository:	Smithsonian Institution Archives, Washington, D.C., osiaref@si.edu
Title:	Records
Identifier:	Record Unit 81
Date:	1903-1911
Extent:	24.02 cu. ft. (20 record storage boxes) (1 12x17 box) (1 16x20 box) (5 tall document boxes) (11 folders oversize materials)
Creator::	United States National Museum. Superintendent of Construction for the United States National Museum Building
Language:	Language of Materials: English

Administrative Information

Preferred Citation

Smithsonian Institution Archives, Record Unit 81, United States National Museum.
Superintendent of Construction for the United States National Museum Building, Records

Descriptive Entry

The National Museum Building Construction Records, 1894 - 1919 (bulk 1903 - 1911), document the process and methods used to construct the National Museum Building that is now known as the National Museum of Natural History. These records primarily refer to the management of the construction aspects of the project, documenting specifications for services and supplies, proposals received as bids to meet these specifications, and contracts that were issued to companies to deliver the supply or service. There is correspondence to and from the Superintendent of Construction, Bernard R. Green, concerning the management of the contracts, orders issued, discussion with inspectors, and companies that were not fulfilling their contracts. A portion of this correspondence and material concerns the process of documenting the failure of two companies, Frank F. Graham and Thompson-Starrett Co., to fulfill their contracts for the project. Additionally, there is accounting and administrative information on the project workers, applications for employment, daily reports, expenses for items, and the receipt of shipments of materials, primarily for cut granite.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

Architectural design

Buildings -- Maintenance
Buildings -- Repair and reconstruction
Museum buildings
Smithsonian buildings

Types of Materials:

Architectural drawings
Floor plans
Manuscripts

Names:

Green, Bernard R. (Bernard Richardson), 1843-1914
Library of Congress. Superintendent of Buildings and Grounds
National Museum of Natural History (U.S.)
Rathbun, Richard, 1852-1918
United States National Museum

Container Listing

Series 1: Daily Reports, December 1, 1904 - December 31, 1906; March 2, 1908; November 4, 1908 - September 15, 1909.

From December 1904 - December 1906, daily reports were created for services rendered. These reports listed weather conditions, remarks and notes on work planned and completed, materials received and expended, number of workers, and total daily cost of the work. In November 1908, the style of report changed to focus on work progressing on the museum basement and third floor. The style of report changed again on 23 February 1909 to weekly reports, continuing to focus on progress of the museum basement and third floor. The daily reports are ordered chronologically, although there is a significant gap from 1907 through most of 1908.

Box 1

Box 1 of 27	December 1, 1904 - January 31, 1905
Box 1 of 27	February 1, 1905 - March 31, 1905
Box 1 of 27	April 1, 1905 - May 31, 1905
Box 1 of 27	June 1, 1905 - July 31, 1905
Box 1 of 27	August 1, 1905 - September 30, 1905
Box 1 of 27	October 2, 1905 - November 30, 1905
Box 1 of 27	December 1, 1905 - January 31, 1906
Box 1 of 27	February 1, 1906 - March 31, 1906

Series 2: Specifications, 1904 - 1910.

The specifications were issued to identify the requirements and purpose of needed services and supplies for the construction of the museum. The specifications outline the number of pieces required, sizes, payment schedules, delivery locations, and bidding instructions, for services and supplies, such as ice, bricks, rope, cement, windows, etc. The specifications are organized in chronological order as they were issued. Related correspondence and advertisements have been attached to or filed after the specification to which they refer. Some specifications contain copies of proposals, and General Instructions and Conditions to Govern Bidders and Contractors. Handwritten notes on the specifications may indicate more precise numbers of pieces, the exact purpose of specific supplies, when first and final deliveries were made, notes on finishing ahead of or behind schedule, to which companies the specifications were originally circulated, and to which company the order was given.

Duplication may occur among the Specifications, Proposals, and Contracts series (Series 2-4). The specifications often refer to drawings or blueprints of supplies that are no longer attached to the specifications. Any oversize blueprints or drawings have been removed and placed in Series 5, Blueprints and Drawings, under the appropriate subseries as either relating to the architectural, mechanical, or structural features of the building.

Box 2

Box 2 of 27	1904 - 1905 (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)
Box 2 of 27	1906
Box 2 of 27	1907
Box 2 of 27	January 27, 1908 - June 13, 1908
Box 2 of 27	July 21, 1908 - December 14, 1908
Box 2 of 27	1909 - 1910

[Return to Table of Contents](#)

Series 3: Proposals, 1904 - 1911.

The proposals group together the bids that were received from companies in response to advertisements and specifications for requests for information, goods, or services. Each packet starts with a list of companies to whom specifications were sent, and may include a second list comparing companies who submitted proposals and their bids. The second list may also indicate to which company the contract was awarded. This information is followed by the correspondence and proposal submitted by the winning company, and then the proposals submitted by the other companies. With each proposal you may find advertisements, specifications, General Instructions and Conditions to Govern Bidders and Contractors, letters, and an Affidavit, Acknowledgment and Justification by Guarantee or Surety Company. Some samples of products, photographs, drawings, or blueprints of products may be included. The proposals are organized by number, 1 - 318, and are primarily in chronological order. All of the proposals are labeled as a Proposal or with the code P-2.

Duplication may occur among the Specifications, Proposals, and Contracts series (Series 2-4). Any oversize blueprints or drawings have been removed and placed in Series 5, Blueprints and Drawings, under the appropriate subseries as either relating to the architectural, mechanical, or structural features of the building. One thing to note about these blueprints is that they were received from companies competing to work on the National Museum Building project. This series may contain blueprints and plans from companies that did not receive a contract, and therefore had no effect on how the National Museum Building was ultimately constructed.

Box 2

(1904 - 1906)

Box 2 of 27	1 - Excavating site
Box 2 of 27	2 - Office building and fence
Box 2 of 27	3 - Concrete foundations
Box 2 of 27	4 - Installing electric wiring in office building, 5 - Furnishing lumber
Box 2 of 27	6 - Cut granite
Box 2 of 27	7 - Furnishing lumber, 8 - Furnishing derrick timbers, 9 - Brass checks
Box 2 of 27	10 - Furnishing derrick fittings and hoisting motors, 11 - Sheet iron linings, drain and over-flow pipes for troughs
Box 2 of 27	12 - Steel work for first floor
Box 2 of 27	13 - Heavy, colored envelopes, 14 - Iron work for fitting up derrick timber, 15 - Derrick timbers for breast derricks
Box 2 of 27	16 - Furnishing hardware
Box 2 of 27	17 - Manila rope and marlin
Box 2 of 27	18 - Lumber

- Box 2 of 27 19 - Hardware supplies, 20 - Steel tackle blocks, 21 - Furnishing scales
- Box 2 of 27 22 - White brick
- Box 2 of 27 23 - Concrete foundations, pipe trenches and drainage
- Box 2 of 27 24 - Furnishing "Barrett" lever jacks, 25 - Iron pipe and fittings, 26 - Hand winding gear for breast derricks (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files), 27 - Furnishing service of mill and shop inspection of steel
- Box 2 of 27 28 - Wagon scales (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 2 of 27 29 - Sand
- Box 2 of 27 30 - Red bricks
- Box 2 of 27 31 - Natural hydraulic cement
- Box 2 of 27 32 - Hollow bricks, 33 - Cast iron bricks, wedges, etc. 34 - Water proofing, 35 - Furnishing blocking
- Box 3
- Box 3 of 27 36 - Granite templates and pier caps
- Box 3 of 27 37 - Electric cable and conduit, 38 - 12 bricklayer ladders, 39 - 20,000 ft. Virginia pine, 40 - Repairing roofs of sheds, 41 - Iron center hangers, 42 - Lumber
- Box 3 of 27 43 - Electric engine for hoist (3 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 3 of 27 44 - Steel hoisting rope, 45 - Blocks and sheaves, 46 - Manila rope
- Box 3 of 27 47 - Railroad rails
- Box 3 of 27 48 - Terra cotta pipe, 49 - Broken stone, 50 - 1000 bbls. Portland cement, 51 - Ice
- Box 3 of 27 52 - Hollow bricks
- Box 3 of 27 53 - Sand
- Box 3 of 27 54 - Red bricks
- Box 3 of 27 55 - Natural hydraulic cement
- Box 3 of 27 56 - Portland cement
- Box 3 of 27 57 - Cinders, gravel or broken stone

Box 3 of 27 58 - Steel work for 2, 3, and attic floors and roof

Box 3 of 27 59 - Granite blocks, 60 - Mill and hop inspection of steel work for second, third, and attic floors and roof, 61 - Galvanized anchors

Box 3 of 27 62 - Floor fireproofing (3 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 3 of 27 63 - Concrete foundations and pier work

Box 3 of 27 64 - Cut granite work for South Pavilion. This proposal relates to Contract 9 located in Series 4, Contracts, and references contract 25.

Box 3 of 27 65 - Furnishing concrete foundations and pier work

Box 3 of 27 66 - Lumber

Box 3 of 27 67 - Steel work for south pavilion

Box 3 of 27 68 - Unfading green slate

Box 3 of 27 69 - Manila rope, 70 - galvanized anchors

Box 3 of 27 71 - Iron wedges, 72 - Lumber

Box 3 of 27 73 - Furnishing hardware

Box 3 of 27 74 - Portland cement

Box 3 of 27 75 - Sand

Box 3 of 27 76 - Enamel bricks

Box 3 of 27 77 - Furnishing pipe, fittings, and valves

Box 3 of 27 78 - Limestone

Box 3 of 27 79 - Marble work

Box 3 of 27 80 - Ice, 81 - Bolts and iron, 82 - Water proofing, 83 - Lumber, 84 - Coke

Box 3 of 27 85 - Estimate on new proposition for metal windows

Box 3 of 27 86 - Lumber, 87 - Lumber

Box 3 of 27 88 - Furnishing hardware

Box 3 of 27 89 - Furnishing flanges and couplings, 90 - Hollow bricks, 91 - Cast iron skeleton bricks

- Box 3 of 27 92 - Windows (14 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 3 of 27 93 - Skylights (5 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 3 of 27 94 - Roofing slates
- Box 3 of 27 95 - Copper roofing
- Box 4
- Box 4 of 27 96 - Concrete roofing (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 4 of 27 97 - Limestone and marble work
- Box 4 of 27 98 - Pipe cutting
- Box 4 of 27 99 - Red bricks
- Box 4 of 27 100 - Cutting raglets
- Box 4 of 27 101 - Natural hydraulic cement, 102 - Cast iron pipe, fittings, etc., 103 - Alterations to steel work, skylight
- Box 4 of 27 104 - Portland cement
- Box 4 of 27 105 - Cast iron radiators
- Box 4 of 27 106 - Gate valves, 107 - Wrought iron hangers and bands
- Box 4 of 27 108 - Electric wiring
- Box 4 of 27 109 - Rough stop cocks, 110 - Manilla rope
- Box 4 of 27 111 - Terra cotta fireproofing
- Box 4 of 27 112 - Ornamental iron work (2 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 4 of 27 113 - Flooring
- Box 4 of 27 114 - Plastering
- Box 4 of 27 115 - Furring and lathing (4 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 4 of 27 116 - Galvanized iron anchors, 117 - Machine bolts and washers, 118 - Cast iron pipe and fittings, 119 - Georgia and Virginia pine lumber, 120 - Pipe fittings

Box 4 of 27 121 - Man hole frames and covers, 122 - Pipe fittings, etc., 123 - Electrical supplies, 124 - Rental of boom derrick, 125 - Hauling rough granite

Box 4 of 27 126 - Electric elevators (24 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 4 of 27 127 - Cast iron curbing

Box 4 of 27 128 - Pipe and fittings

Box 4 of 27 129 - Muslin

Box 4 of 27 130 - Pipe, fittings, etc.

Box 4 of 27 131 - Freight on rough granite, 132 - Blocking, 133 - Lumber

Box 4 of 27 134 - Coke, 135 - Tool steel, etc.

Box 4 of 27 136 - Hardware supplies

Box 4 of 27 137 - Pipe fittings

Box 4 of 27 138 - Granite cutting tools

Box 4 of 27 139 - Missing

Box 4 of 27 140 - Loading stone on cars at Baltimore

Box 4 of 27 141 - Hardware, 142 - Electric motors, 143 - Grindstones

Box 4 of 27 144 - Tinned copper, 145 - Pipe and fittings, 146 - Requesting terms for hauling away blocks of granite waste and spawls

Box 4 of 27 147 - Brass air cocks

Box 4 of 27 148 - Wrought iron anchors

Box 4 of 27 149 - Steel flag pole (2 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 4 of 27 150 - Wrought iron expansion tank

Box 5

(1908)

Box 5 of 27 151 - Gate valves, 152 - Pipe and fittings

Box 5 of 27 153 - Hardware

Box 5 of 27 154 - Virginia pine, 155 - Georgia pine, 156 - 6500 ft. of cypress or basswood

Box 5 of 27 157 - Outfit for granite carving

Box 5 of 27 158 - Framework for elevators

Box 5 of 27 159 - Metal windows and ceiling lights

Box 5 of 27 160 - Wooden windows

Box 5 of 27 161 - Strainer plates and frames, 162 - Air valves

Box 5 of 27 163 - Pipe fittings, 164 - Ice, 165 - Galvanized iron flues, 166 - Additional terra cotta partitions

Box 5 of 27 167 - Removing refuse granite, 168 - Floor thimbles for electric cables, 169 - Pipe and fitting

Box 5 of 27 170 - Engines and dynamos (24 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 5 of 27 171 - Flooring lumber

Box 5 of 27 172 - Plumbing fixtures

Box 5 of 27 173 - Galvanized iron smoke hoods, 174 - Rope

Box 5 of 27 175 - Ceiling plates

Box 5 of 27 176 - Galvanized wrought iron anchors, 177 - Steel rope

Box 5 of 27 178 - Ventilators

Box 5 of 27 179 - Portland cement

Box 5 of 27 180 - Boilers (5 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 5 of 27 181 - Ventilating fans

Box 5 of 27 182 - Flooring lumber

Box 5 of 27 183 - Lumber, 184 - Cinders, 185 - Labor and materials for installing temporary plumbing fixture for toilet rooms, 186 - Lumber, 187 - Lumber, 188 - Stands, 189 - Price for one coat of cold water paint on partitions, 190 - Pipe fittings

Box 5 of 27 191 - Electric wiring of south pavilion

Box 5 of 27 192 - Fireproof door bucks and frames (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 5 of 27 193 - Pipe and fittings, 194 - Terra cotta arch blocks

Box 5 of 27	195 - Sand
Box 5 of 27	196 - Copper
Box 5 of 27	197 - "Black diamond" stone points, 198 - Quoting price on pipe and fittings
Box 5 of 27	199 - Flooring lumber
Box 5 of 27	200 - Steel work
Box 5 of 27	201 - Requesting information regarding coal hoisting machinery (5 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
Box 5 of 27	202 - Inspection of iron work, 203 - Steel bars, 204 - Ells
Box 5 of 27	205 - Pipe covering
Box 5 of 27	206 - Tanks
Box 5 of 27	207 - Wire rope
Box 6	
Box 6 of 27	208 - Marble column shafts
Box 6 of 27	209 - Portland cement
Box 6 of 27	210 - Prices for furnishing terra cotta fireproofing
Box 6 of 27	211 - Marble work
Box 6 of 27	212 - Pipe and fittings, 213 - Plaster board hangers
Box 6 of 27	214 - Ventilating ducts
Box 6 of 27	215 - Georgia pine flooring
Box 6 of 27	216 - Models for north entrance grilles in response to verbal request for prices, 217 - Cypress strips, 218 - Wire screens
Box 6 of 27	219 - Cast iron chimney top
Box 6 of 27	220 - Broken stone or gravel, 221 - Sawing lumber
Box 6 of 27	222 - Generator switchboard
Box 6 of 27	223 - Pipe, fittings, etc.
Box 6 of 27	224 - Steam pumps

Box 6 of 27	225 - Fittings and valves, 226 - Pipe and fittings
Box 6 of 27	227 - Nails
Box 6 of 27	228 - Information relative to coal handling machinery (2 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
Box 6 of 27	229 - 10,000, more or less, ribbed strips of #20 Galv. Sheet Iron, 230 - Soft coal
Box 6 of 27	231 - Cast iron flanged pipe, 232 - Waterproofing, 233 - Iron plates, 234 - Sawing slates
Box 6 of 27	235 - Coal handling machinery (3 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
Box 6 of 27	236 - Chain block (4 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
Box 6 of 27	237 - GA (Georgia) Pine Flooring Sleepers, 238 - Cast iron wedges
Box 6 of 27	239 - Hot water generator
Box 6 of 27	240 - Pipe and fittings
Box 6 of 27	241 - Fireproof doors and trims (9 items removed to oversize storage - see inventory of oversize material locations in SIA control files)
Box 6 of 27	242 - Washers and bolts, 243 - Pipe, fittings, etc.
Box 6 of 27	244 - Copper and solder, 245 - Cut and wire nails
Box 6 of 27	246 - Iron gates and bronze doors
Box 6 of 27	247 - Marble and limestone work
Box 6 of 27	248 - Cutting and threading pipe, 249 - 1 special 14" ell
Box 6 of 27	250 - Glass
Box 6 of 27	251 - Marble bases
Box 6 of 27	252 - Hinges
Box 6 of 27	253 - Plastering
Box 6 of 27	254 - Red bricks
Box 6 of 27	255 - Terra cotta partition

Box 6 of 27 256 - Vacuum cleaning system (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 6 of 27 257 - Miscellaneous iron work and skylights, 258 - Galvanized iron work

Box 6 of 27 259 - Picture moulding

Box 6 of 27 260 - Pipe fittings, gauges, etc., 261 - Steel drip tank

Box 6 of 27 262 - Borrowed lights (4 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 6 of 27 263 - Miscellaneous iron work, 264 - Panelboard, etc.

Box 6 of 27 265 - Lugs, 266 - Ice

Box 6 of 27 267 - Ventilating fans and ducts, 268 - Pipe and fittings

Box 6 of 27 269 - Surfacing floors, 270 - Non-conducting covering for pipes, etc.

Box 6 of 27 271 - Covering plates of cast iron, 272 - Hack saw blades and files

Box 6 of 27 273 - Pivoted sash, 274 - Modifications in window sash, 275 - Fittings

Box 6 of 27 276 - Skylights (2 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 6 of 27 277 - Drinking water trap boxes, 278 - 15000 lin. ft. 2 x 3 heart long leaf pine

Box 6 of 27 279 - Metal doors and trims (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 6 of 27 280 - Plate glass

Box 6 of 27 281 - Elevator gates (2 items removed to oversize storage - see inventory of oversize material locations in SIA control files)

Box 6 of 27 282 - Wood doors and trims

Box 6 of 27 283 - Polished plate glass, 284 - Excavating

Box 6 of 27 285 - Platform scale (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files), 286 - Cast iron trench plates, 287 - Wall base, etc.

Box 7

Box 7 of 27 288 - Fire valves, 289 - Pipe covering

Box 7 of 27 290 - Pipe and fittings, 291 - Tanks, 292 - Sheet iron, etc.

Box 7 of 27 293 - Angle iron, etc., 294 - Paving blocks, 295 - Ribbed wire glass

Box 7 of 27	296 - Pipe and fittings, 297 - Blank (blank piece of paper), 298 - Wire screen
Box 7 of 27	299 - Pig lead, 300 - Glazed doors, 301 - Wood door saddles
Box 7 of 27	302 - Metal gates, doors and railings
Box 7 of 27	303 - Portland cement, 304 - Broken stone
Box 7 of 27	305 - Sand, 306 - Red bricks
Box 7 of 27	307 - Ceiling light (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)
Box 7 of 27	308 - Waterproofing south approach to building, 309 - Laying terrazzo floors in auditorium, 310 - One pair circular-head doors and frame
Box 7 of 27	311 - Grilles, 312 - Missing, 313 - Georgia flooring
Box 7 of 27	314 - Iron enclosure of elevators (2 items removed to oversize storage - see inventory of oversize material locations in SIA control files), 315 - Wood doors and door frames, jambs and trim
Box 7 of 27	316 - Wrought iron grilles, 317 - Mosaic floor, 318 - Electric hoist

Series 4: Contracts, 1903 - 1910.

Contracts were awarded based on the companies that submitted proposals and they note when the contract was entered into, with whom, and for what purpose. The contract lays out the articles of agreement between the parties of the contract, and all appear to be signed. Also included are correspondence, advertisements and specifications for the service or supply, General Instructions and Conditions to Govern Bidders and Contractors, proposals, and supplemental contracts. Duplication may occur among the Specifications, Proposals, and Contracts series (Series 2-4). The contracts and related material are bound and sealed together.

Contracts were issued for goods and services covering excavation, granite, bricks, sand, windows, electric wiring, plumbing fixtures, fan motors, installing generators, marble work, etc. The contracts are organized by number, 1 - 93, and are primarily in chronological order. The contracts all appear to be labeled as a Contract or with the code C-6. Some of the contracts contain correspondence that is labeled with codes similar to the codes in the Incoming Correspondence series. If this occurs, there is usually a reference in the Incoming Correspondence series stating that this material can be found with a particular contract.

Any oversize blueprints or drawings have been removed and placed in Series 5, Blueprints and Drawings, under the appropriate subseries as either relating to the architectural, mechanical, or structural features of the building.

Box 7

Box 7 of 27	Contracts 1 - 6
Box 7 of 27	Contracts 7 - 8

Series 5: Blueprints and Drawings, 1894-1919 (bulk 1903-1909).

The blueprints and drawings offer a broad view of the construction of the National Museum building from the structural design, to architectural elements within the building, to the mechanical technology that was used in the construction of the building and which functioned within the building once it was opened to the public. The blueprints and drawings may have been submitted as their own series, or they were pulled from the specifications, proposals, and contracts series (Series 2-4). In some cases, blueprints and drawings have been kept that were received with proposals from companies and contractors who may not have been awarded the contract for a supply, good, service, or for construction. These blueprints and drawings provide contextual information pertaining to proposal selections; design, structural or mechanical differences amongst proposals; different techniques proposed for the construction of the building; technologies available at the time of construction; and the decision-making process in the construction of the National Museum Building. This series also has three subseries: Architectural, Mechanical, and Structural.

The Architectural subseries is divided by building element. All of these blueprints and drawings relate to an architectural component of the building such as window design, ornamental work on stairs, or fireproofing components of the building.

The Mechanical subseries is first divided into two groups: mechanical devices which were built into the building, such as elevators and wiring; and mechanical devices used in the construction of the building, ranging from electric hoists to wagon scales.

The Structural subseries consists of plans and layouts of the museum floors, as well as views of the building from the outside.

Series 6: Incoming Correspondence, 1903-1911.

The incoming correspondence is addressed to Bernard R. Green, Superintendent of Construction, and concerns matters such as specifications, bills, sketches, enclosed drawings or blueprints, employment, specific contracts, wages, granite, dimensions, deliveries, equipments, etc. The outside of the letters often has a sentence that indicates the content of the letter.

Each item of incoming correspondence has been labeled with a code, such as A-43 or B-20. When correspondence was received it was filed under its appropriate letter in the alphabet, but correspondence from the same sender was grouped together. This group of correspondence from one sender was given a code based on the first letter of a corporate name or the first letter of an individual's last name, and then a number indicating the group number. For example, all correspondence from the Alberger Condenser Co. is grouped under the code A-43. Since the groups are not organized in alphabetical order within each letter it is believed that the numbers were assigned based on when the correspondence was first received by a company or an individual. For example, A-1 is the American Stoker Co., first letter received on March 12, 1903, and A-2 is the American Bridge Co., first letter received on March 25, 1903. If the American Bridge Co. letter had been received first it is possible that it could have been A-1. A master list of the codes does not appear to exist. In addition to the codes, each piece of correspondence is given another number that indicates its position within its group, based on the date it was received. The correspondence is primarily in chronological order within each group.

Blueprints or drawings will be found attached to some individual pieces of correspondence.

Series 7: Applications, 1903-1910.

The applications are letters stating application for employment. They are often labeled on the outside with the name of the applicant, address, occupation, who they were recommended by, training information, and if the letter refers to any other names. All the applications were addressed to Bernard R. Green, Superintendent of Construction, and typically state the position in which the applicant is interested, their experience, names of references, and letters from these references may be included. Sometimes the application is simply a letter from a reference. Applicants were interested in the following types of positions: clerk, civil engineer, watchman, inspector on granite work, laborer, sculptor, rigger, bricklayer, plumber's apprentice, carpenter, hoisting engineer, carver, painter, etc. The applications are labeled as such and are organized in numerical order from 1-166 as they were received, and they are primarily in chronological order.

Series 8: Accounting Records, 1902 - 1911.

The accounting records date from 1907 - 1911, and include monthly labor reports, a ledger, a monthly time book, and an order book. The records indicate the cost of supplies and labor during a portion of the construction period, as well as names of specific laborers working on the project. However, there is no consistent run of ledgers documenting expenses by day, and the information concerning payroll does not cover the entire date span of this series. This information also does not cover the entire period of construction on the National Museum, but gives a glimpse at the types of expenses involved in the construction of the museum, and to whom these expenses were paid.

Box 17

- Box 17 of 27 Monthly Labor Reports, August 1907 - December 1908. Each report includes a list of the cost of payroll by date during the month, a list of the cost of materials used, and list of the amount of materials used.
- Box 17 of 27 Monthly Labor Reports, January 1909 - February 1911.
- Box 17 of 27 Ledger, New Building National Museum, 1902 - 1910. Lists contracts in numerical order, noting with whom the contract was made, for what, and amounts paid.
- Box 17 of 27 Ledger, January - March 1909. Contains a note that reads:
- Box 17 of 27 Memorandum (found in the ledger), October 24, 1908, to Superintendent Green, from F. A. Freas, regarding amount expended on pilasters and column capitals.
- Box 17 of 27 Monthly Time Book, August 1910 - May 1911. Records worker name, number of hours (?) worked per day during a month, total time, pay rate, and amount earned.

Box 18

- Box 18 of 27 Order Book, 1903 - 1911. Documents orders placed in numerical order, the date of the order, from whom the items were ordered, the articles ordered, application, date received, the amount paid, possibly an amount deducted for over-estimates, and the date paid. The orders are numbered 1 - 4086; however, many of the numbers have a sub-number, often noted in red ink. It is the red order number that matches the order books found in the Construction Administration series. Additionally, there are breaks in the numbering scheme for the Tuberculosis Congress, and the contract of Frank F. Graham.

Series 9: Outgoing Correspondence, 1903-1911.

The outgoing correspondence contains letters that were sent by Bernard R. Green, Superintendent of Construction, to individuals, inspectors, companies, and Mr. Langley, Secretary of the Smithsonian Institution. The letters concern matters such as architectural plans, business processes, Articles of agreement with architects Joseph C. Hornblower and James R. Marshall, financial matters, proposals, contracts awarded and not awarded, photographing construction, committees, modifications to plans, inspectors, granite, damaged stones, few drawings, etc. The outgoing correspondence is housed within bound volumes, primarily in chronological order. All of the letters are on very fine carbon paper. At the beginning of each book is an alphabetical listing of correspondents within the book including an indication of the page number of the correspondence.

Box 19

- Box 19 of 27 1. March 13, 1903 - February 17, 1905
- Box 19 of 27 2. February 17, 1905 - September 12, 1905
- Box 19 of 27 3. September 12, 1905 - September 13, 1906

Box 20

- Box 20 of 27 1. September 11, 1906 - July 5, 1907
- Box 20 of 27 2. July 6, 1907 - January 28, 1908
- Box 20 of 27 3. January 28, 1908 - June 3, 1908

Box 21

- Box 21 of 27 1. June 4, 1908 - September 19, 1908
- Box 21 of 27 2. September 21, 1908 - January 6, 1909
- Box 21 of 27 3. January 6, 1909 - May 1, 1909

Box 22

- Box 22 of 27 1. May 1, 1909 - September 23, 1909
- Box 22 of 27 2. September 23, 1909 - November 8, 1910
- Box 22 of 27 3. November 8, 1910 - August 5, 1911

Series 10: Thompson-Starrett Co. and Frank F. Graham Records, 1904 - 1910.

The Thompson-Starrett Co. and Frank F. Graham records include correspondence, invoices, and hearing information related to the Thompson-Starrett and Frank F. Graham contracts. Frank F. Graham was awarded a contract to supply the National Museum with cut granite, while the Thompson-Starrett Co. supplied the granite to Frank F. Graham. Delays in supplying the granite and in cutting caused both companies to default on the deadlines of their contracts. As a result, they were each sued for breach of contract. Much of the correspondence in this series relates to documenting the process of receiving stones, shipping stones, cutting stones, deadlines, and delays. There is a great deal of correspondence and documentation on the process of working with these two companies. Two of the primary correspondents were William Pirie, who inspected the Frank F. Graham progress and stones, and James A. Bailey, who inspected the Thompson-Starrett Co.

Box 23

- Box 23 of 27 Graham correspondence (bound), October 20, 1906 - May 27, 1909. All letters are labeled as copies, most outgoing from Bernard R Green to Frank F. Graham, some are incoming. Later letters include other correspondents such as Harry E. Scherf, Attorney at Law for Frank F. Graham. Topics concern the cutting, measurements, and shipments of granite; references to drawings and plans, and delays in delivery; trouble getting cars to carry granite from railroads; discussion and disputes over the contract; delays fulfilling contract; stopping work on granite for museum; and annulment of contract.
- Box 23 of 27 F. F. Graham correspondence, December 18, 1907 - March 14, 1908.
- Box 23 of 27 Bailey - Green correspondence (bound), December 14, 1906 - July 21, 1908. Correspondence between Bernard R. Green and James A Bailey, Inspector, concerning the reasons quarrying was held up, concerns over Thompson-Starrett Co., problems getting cars to ship stone, delays, and problems with the stones themselves such as spots and size.
- Box 23 of 27 Bailey, James, correspondence, November 26, 1904 - September 9, 1907, from Bernard R. Green. Does not appear to duplicate previous bound correspondence.
- Box 23 of 27 Green - Pirie correspondence (bound), November 12, 1906 - August 20, 1908. Correspondence between Bernard R. Green and William Pirie concerning the status of Frank F. Graham and Thompson-Starrett Co. work, progress thereof, and delays particularly on the part of Frank F. Graham.
- Box 23 of 27 Pirie, William, correspondence, November 12, 1904 - November 21, 1906, from Bernard R. Green. Does not appear to duplicate previous bound correspondence. (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files)
- Box 23 of 27 Thompson-Starrett correspondence (bound), December 6, 1906 - May 9, 1908. Between Bernard R. Green and Thompson Starrett Co. concerning project and process, problems with railroad cars, delays, patterns and quality of stone, and problems fulfilling contract.

- Box 23 of 27 Thompson-Starrett correspondence, March 21, 1904 - May 22, 1907. To and from Bernard R. Green. Does not appear to duplicate previous bound correspondence.
- Box 23 of 27 Rehearing appeal no. 17594, January 15, 1910.
- Box 23 of 27 Hornblower & Marshall correspondence, November 7, 1906 - December 3, 1907. To Bernard R. Green from A. L. Harris, concerning drawings sent, modifications, and dimension changes. Also includes Conversation between A. L. Harris, and Mr. McLanahan concerning the drawings required by the contractor to complete their work.
- Box 23 of 27 Conversation between James A. Bailey and Mr. McLanahan, undated.
- Box 23 of 27 Shipment invoices from Frank F. Graham, June 19, 1907 - May 20, 1908. Nos. 1 - 19, 21 - 69. Noting course, number, length, bed, rise, and cube of pieces of granite shipped, primarily for Portion C of the South Pavilion.
- Box 23 of 27 Shipment invoices from Thompson Starrett, January 29, 1908 - July 14, 1908. Nos. 157 - 160, 168 - 275. Noting pier, marks, dimensions, and cubic feet of stone. All the pages are labeled as rough stock.
- Box 23 of 27 Graham contract accounting information, ca. May 25, 1909. Includes Approximate Classified Statement of Items of Cost to the United States on Account of F. F. Graham Contract, and Statement of Graham Contract.
- Box 23 of 27 Ledger, Completion of contract Frank F. Graham, October 23, 1906, April 4, 1908 - April 21, 1909. Ledger notes the date paid, to whom paid, for what object, and the amount paid.
- Box 23 of 27 Ledger, Material receipts for F. F. Graham contract, April 23, 1908 - May 6, 1909. Noting materials purchased, how much, and from whom.

[Return to Table of Contents](#)

Series 11: Construction Administration, 1903 - 1910.

The Construction Administration series dates from 1903 - 1910, and consists of materials and correspondence concerning the management and construction of the National Museum. Included in this series are order books for supplies and services; invoices, receipts, and records of materials received; indexes for companies and people involved in the project; and ledgers concerning the stones received. There is no consistent run of correspondence or ledgers to document decisions made or the construction process, but this series offers a glimpse as to the management process for the project. This series also has two subseries: Shipping Records and Contract 25.

The Shipping Records subseries primarily includes invoices and schedules documenting the number of pieces of granite that were cut, shipped, by whom, and the date they were shipped.

The Contract 25 subseries relates to a contract that is missing from the Contracts series. This information documents granite and lumber that was received in accordance with fulfilling this contract.

Box 24

- | | |
|--------------|---|
| Box 24 of 27 | Copy of Letters, September 2, 1904 - August 17, 1907. Letters to Bernard R. Green from F. R. Freas, Master Mechanic. |
| Box 24 of 27 | Order Book, March 1905 - July 1906. For Courses V - Z1, noting dimensions of stones, and the dates they were reported cut. |
| Box 24 of 27 | First and second story stone ledger, 1905 - 1909. Noting pier, course, no., length, bed, rise, cubic feet, and date received. |
| Box 24 of 27 | Invoices, Delivery accounts, March 1905 - August 1910. Lists suppliers and the items they contracted to provide, as well as delivery information such as date shipped, load no., car no., contracts, remarks, and date received. Often lists a contract number. |
| Box 24 of 27 | Courses A - C, 1906 - 1907. Noting pier, course, number, length, bed, rise, cube and remarks about stones. (1 item removed to oversize storage - see inventory of oversize material locations in SIA control files) |
| Box 24 of 27 | Copy of Daily Material Receipt Report, November 26, 1907 - March 26, 1910. Noting from whom material was received, quantity, what the article was, and remarks. |
| Box 24 of 27 | Record of telephone calls, 1908 - 1909. Noting date the call was made, from and to whom. |
| Box 24 of 27 | Lord Electric Co., Papers concerning settlement of extra work, November 30, 1908 - September 14, 1909. Order no. 1 for Job no. 264. Noting description of work, materials used, and amount of labor used in hours. |
| Box 24 of 27 | Lord Electric Co., Papers concerning settlement of extra work, January 27, 1909 - October 1, 1909. Order no. 2 for Job no. 264. |
| Box 24 of 27 | Lord Electric Co., Papers concerning settlement of extra work, ca. 1909. |

Box 24 of 27 Index, applications, undated. Names noted in numerical and alphabetical orders. May relate to the Applications series.

Box 24 of 27 Index, Building National Museum, undated. Companies noted in alphabetical order.

Shipping Records

Box 24 of 27 Schedule of Cut Granite, 13 October 1906.

Box 24 of 27 Schedule of cut granite, quarry cube, February 1907 - March 1908.

Box 24 of 27 Schedule of cut granite, Shipments 1 - 69, May 14, 1907 - March 5, 1908. Notes location of stone, number, length, bed, rise, and notes. These schedules refer to the same shipments and stones as the Shipment invoices from Frank F. Graham, June 19, 1907 - May 20, 1908. Nos. 1 - 69, in the Thompson-Starrett and Frank F. Graham Records series.

Box 24 of 27 Schedules of cut granite, October 1907 - July 1908.

Box 24 of 27 Rough stock shipments, March 6, 1908. Noting shipment number, feet and inches.

Box 24 of 27 Stones cut and boxed, March 7, 1908. Noting what appears to be a location code, dimensions of the stone, and what appears to be the date delivered.

Box 24 of 27 John A. Rowe Cut Stoneworks for J. Pier Limestone, Loads 1 - 53, October 4, 1907 - May 23, 1908. Notes the name of the stone, number of pieces, length, breadth, thickness, and cubic measurements.

Box 24 of 27 The Webb Granite & Construction Co., Approaches, Loads 1 - 12, 14 - 32, August 22, 1908 - November 30, 1908. Notes stone identifier, size, and cube.

Box 24 of 27 American Bridge Company Shipping Statements, I-Steel work, no. 3, Loads 1 - 55, July 21, 1905 - March 27, 1906.

Box 24 of 27 American Bridge Company Shipping Statements, I-2nd floor steel, no. 6, Loads 1 - 37, 40 - 42, September 2, 1906 - December 6, 1906.

Box 24 of 27 American Bridge Company Shipping Statements, I-3rd floor steel, no. 6, Loads 40 - 75, 40 - 42, December 6, 1906 - March 8, 1907.

Box 24 of 27 American Bridge Company Shipping Statements, J-attic steel, no. 6, Loads 1 - 4, 5 - 40, July 17, 1907 - December 19, 1907.

Box 25

Box 25 of 27 E.B. Ellis Granite Company, invoice, J-rough stock, no. 7, Load 42, August 22, 1907.

Box 25 of 27 F. F. Graham invoices, I-Portion C S.P., no. 7, Loads 20 - 21, September 7, 1907 - September 13, 1907.

- Box 25 of 27 Phoenix Iron Company Shipping Statements, I-Steel South Pavilion, no. 8, Loads 1 - 9, February 25, 1907 - June 20, 1907.
- Box 25 of 27 Reports of granite cut and inspected, No. 12, R. Basement, 1 - 16, by James A. Bailey, January 1905 - September 1906.
- Box 25 of 27 Reports of granite cut and inspected, No. 24, R. Basement-South Pavilion, 1 - 3, by William Pirie, December 1906 - February 1907.
- Box 25 of 27 Reports of granite cut and inspected, No. 12, R. First and Second Stories, 1 - 26, by James A. Bailey and William Pirie, December 1904 - September 1907.
- Box 25 of 27 Reports of granite cut and inspected, No. 12, R. Courtyards, 1 - 17, by Thomas Johnston, June 1905 - October 1906.
- Box 25 of 27 Reports of granite cut and inspected, No. 12, R. Attic, 1 - 10, by John Craig and James A. Bailey, October 1905 - August 1906.
- Box 25 of 27 Reports of granite cut and inspected, No. 30, R. Limestone, 1 - 6, by Thomas Johnston, November 1907 - April 1908.
- Box 25 of 27 Report on test and inspection of tension rings for dome, Pittsburgh Testing Laboratory, No. 46, 1 - 9, November 19, 1908 - January 12, 1909.
- Box 25 of 27 Reports schedule of red granite for portico floor, portions L and X, No. 37, 41, November 20, 1908.
- Box 25 of 27 Reports schedule of Red Stone cut, No. 47, 2 - 10, December 1, 1908 - April 24, 1909.
- Box 25 of 27 Reports of granite cut and inspected, December 1904 - May 1906.

Contract 25

- Box 25 of 27 Record of Contract no. 25 and Red Jersey Granite: Shown when cut and when received, February 1907 - March 1909. Notes the portion of building for which the granite is designated (column, course, dentil course, south pediment, cornice, parapet, coping, ceiling stones of portico), date received, dimensions, and another date.
- Box 25 of 27 Reports of materials received on account of contract no. 25, April 16, 1908 - August 31, 1908. These reports are similar to, but does not always duplicate, the Reports of material received in the Construction Administration series.
- Box 25 of 27 Reports of materials received on account of contract no. 25, September 2, 1908 - April 26, 1909.
- Box 25 of 27 Memorandum of lumber purchased a/c contract 25, lineal feet, undated. Refers to Virginia Pine and White Pine.

- Box 25 of 27 Cut granite for South Pavilion, completion of contract no. 25, undated. Designated for Courses EPZ, WP, WPZ, and Z. The cards note name, course, length, bed, rise, cube, commenced, finished, remarks, and a drawing of a block of granite.
- Box 26
- Box 26 of 27 Orders Issued, Letters 1, July 9, 1903 - August 11, 1908. Letters from Bernard R. Green ordering various goods and services, such as forms, steel work, bricks, sage green paint, rubber, cable, sponges, envelopes, coke, paper, rivets, wire, Georgia pin, repairs of the Venetian mosaic flooring, and nails. The orders appear to be a mix of those items for which contracts were issued, and small, necessary items for construction such as rivets and nails.
- Box 26 of 27 Orders Issued, Letters 2, August 11, 1908 - [July 14, 1909].
- Box 26 of 27 Orders Issued, Letters 3, July 16, 1909 - [May 6, 1911].
- Box 26 of 27 Record of workmen: Roster of employees on building for national museum, F. R. Freas, M.M. June 15th 1904. Notes the worker's name, occupation, date joined, date dismissed, cause of dismissal, and a rank of their ability as a worker.
- Box 27
- Box 27 of 27 Reports of material received, April 1, 1908 - May 29, 1908.
- Box 27 of 27 Reports of material received, June 1, 1908 - July 31, 1908.
- Box 27 of 27 Reports of material received, August 1, 1908 - September 30, 1908.
- Box 27 of 27 Reports of material received, October 1, 1908 - November 30, 1908.
- Box 27 of 27 Reports of material received, December 1, 1908 - January 30, 1909.
- Box 27 of 27 Reports of material received, February 1, 1909 - March 31 1909.
- Box 27 of 27 Reports of material received, April 2, 1909 - April 30, 1909, August 24, 1909.
- Box 27 of 27 Roll of workmen employed during the period ending 15 April 1909. Noting check numbers, names, days of the month worked, and notes.
