Smithsonian Institution Archives, Record Unit 156, United States National Museum. Division of Vertebrate Paleontology, Records

Historical Note

The Division of Vertebrate Paleontology maintains fossil collections, the earliest of which were gathered during the United States Exploring Expedition in the 1830's and forwarded to the National Institute. From 1846 to 1858, these collections were transferred to the Smithsonian. Unfortunately, most of the specimens have subsequently been discarded presumably because they lacked data pertaining to origin and locality.

Joseph Leidy of the Academy of Natural Sciences in Philadelphia was commissioned in 1850 by the Smithsonian as a collaborator to study the fossil collections housed in the Institution and those to be collected in the field. Leidy's studies continued into the late 1860's and were published in part in the Smithsonian Contributions to Knowledge. Leidy's study of fossils included those gathered during the General Land Office surveys (1849-1858), Pacific Railroad Survey (1854-1855), and by the United States Geological Survey under the direction of F.V. Hayden (1856-1872).

In 1867, Edward Drinker Cope began his collaboration with the Smithsonian, and his studies on fossils collected at the Smithsonian were published both in the Smithsonian Contributions to Knowledge and the Smithsonian Miscellaneous Collections.

From the organizational beginning of the United States National Museum until 1887, the custody of vertebrate fossils was placed under the Department of Comparative Anatomy. Osteologists from the Department carried out the preparation and exhibition of the collection.

Vertebrate fossils emerged as an administrative organization in 1881, when Othniel Charles Marsh, in charge of vertebrate paleontology at the United States Geological Survey, was appointed honorary curator of the Department of Vertebrate Fossils. The Department came under the supervision of the Division of Zoology. Since then, the Department of Vertebrate Fossils has undergone numerous transformations both in name and administration.

The Department became a section under the Department of Paleontology in 1894 and when the USNM was reorganized in 1897, Vertebrate Fossils remained a section under the newly created Division of Stratigraphic Paleontology.

When Marsh died in 1898, Frederic Augustus Lucas, an osteologist, was made acting assistant curator of the Section. Lucas had been an assistant curator of the Section intermittently since 1891, and had been made curator of Comparative Anatomy in 1894. Lucas became acting curator of Fossils in 1903 only to resign from the USNM in 1904. Fossils disappeared as an administrative unit from 1905 to 1908. However, it remained a viable and functioning unit without a name as Charles W. Gilmore (1904) and James W. Gidley (1905) were appointed preparators to the section. George P. Merrill, head curator of the Department of Geology, administered the collection.

When the Division of Stratigraphic Paleontology was reorganized in 1908, with each of its sections becoming a division, Fossils reemerged as the Division of Vertebrate Paleontology. Gidley became custodian of the mammalian collection and Gilmore custodian of the reptilian collection.

In June 1911, Vertebrate Paleontology became a section under the Division of Paleontology; during the following month, Gidley and Gilmore became assistant curators of fossil mammals and fossil reptiles, respectively. Gilmore became associate curator of the Section in 1917-1918, and in May 1923 became curator of Vertebrate Paleontology.

Vertebrate Paleontology again became a Division in June of 1924, when the Division of Paleontology was renamed the Division of Stratigraphic Paleontology.

James W. Gidley died on September 26, 1931. The vacancy was filled when Charles L. Gazin was appointed assistant curator to the Division on March 1, 1932. Gazin became associate curator on March 1, 1942, and subsequently became curator of the Division on January 1, 1946, upon the death of Gilmore, September 27, 1945.

Other staff members appointed to the Division include David H. Dunkle, who was appointed associate curator in 1946-1947. Dunkle retired in March of 1968. Peter P. Vaughn, appointed associate curator in July, 1957, resigned in January of 1959. Nicholas Hotton III was appointed associate curator in June of 1959 and became curator of the Division in 1968-1969. Clayton E. Ray was appointed associate curator in 1963, and when Gazin became senior paleontologist in 1968 in order to devote full time to scientific studies, Ray became curator and supervisor of the Division.

On October 15, 1963, the Department of Geology was disbanded with its administrative function divided into two departments, Mineral Science and Paleobiology. The Division of Vertebrate Paleontology came under the supervision of the latter.

Most of the papers within these records pertain to the professional and administrative activities of Charles W. Gilmore while he was a staff member of the Division (1905-1945). Gilmore, who was selected in 1932 by J. McKeen Cattell, editor of *Science*, as one of the twenty-five leading geologists in the United States, was born in Pavilion, New York, in 1874. He began his interest in fossils and museum work at an early age, after visiting Ward's Natural Science Establishment. Gilmore attended the University of Wyoming where he studied and collected fossil specimens, and from 1901-1904, he was a collector in the Department of Vertebrate Paleontology at the Carnegie Museum in Pittsburgh. From 1904 until his death in 1945, Gilmore was a staff member of the United States National Museum. He participated in sixteen expeditions and because of his work, the results of the most important excavations and studies at the Dinosaur National Monument have been analyzed and recorded. Among the numerous scientific societies to which he belonged, Gilmore was president and member of the Society of Vertebrate Paleontology, the Paleontology Society of Washington and the Geological Society of America.

Descriptive Entry

These records document the history of the Division of Vertebrate Paleontology, 1889-1957, and to a greater extent, document the professional and administrative activities of Charles W. Gilmore when he was a staff member with the Division (1905-1945). Materials include daybooks and journals kept by Gilmore, containing the daily work activities of himself and other staff members in the Division, 1905-1931; incoming and outgoing correspondence most of which, from 1905-1945, was written or received by Gilmore; examination and reports of specimens and outgoing correspondence; and article drafts, notes, speeches, and radio talks, mostly written by Gilmore.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Paleontologists
- Paleontology
- Paleontology, Vertebrate

Types of Materials:

- Journals (accounts)
- Manuscripts

Names:

- Cope, E. D. (Edward Drinker), 1840-1897
- Dunkle, David Hosbrook
- Gazin, C. Lewis (Charles Lewis), 1904-1996
- Gidley, James Williams, 1866-1931
- Gilmore, Charles W. (Charles Whitney), 1874-1945
- Leidy, Joseph, 1823-1891
- Lucas, Frederic A. (Frederic Augustus), 1852-1929
- Marsh, Othniel Charles, 1831-1899
- United States National Museum
- United States National Museum. Department of Geology
- United States National Museum. Department of Paleontology
- United States National Museum. Division of Comparative Anatomy
- United States National Museum. Division of Stratigraphic Paleontology
- Vaughn, Peter Paul, 1928-

Container Listing

Series 1: Daybooks and Journals Kept by Charles W. Gilmore, 1905-1931.

Daybooks and journals kept by Charles W. Gilmore. October 19, 1905-November 18, 1931, bound. 27 volumes. Contains a daily account of Gilmore's work activities and those of other staff members of the Division of Vertebrate Paleontology; also includes a record of requisitions for the Division.

Series 3: General Correspondence, Incoming and Outgoing, 1898-1901, 1905-1945. Arranged alphabetically.

Most of this correspondence was written or received by Charles W. Gilmore. Correspondence is with scientific colleagues working with federal and local governmental agencies, universities, and other museums, museum directors, collectors of fossil specimens, editors, scientific illustrators, scientific societies, Smithsonian administrators and Division staff members; concerning identification and examination of fossils, shipment of fossil specimens, purchasing of fossil specimens, location of fossils, requests for fossil skeletons and photographs of fossils, recommendations for job openings, recommendations for grants, recommendations for membership to professional scientific societies, publication of scientific articles, requests for Gilmore's reprints, and requests for Division reports.

Series 4: Vertebrate Fossils Identifications, 1889-1904.

Box 13

Box 13 of 19

Folders 15-24 Vertebrate Fossils identifications, 1889-thru 1904. Arranged chronologically. Most of the material appears to be notes on fossil specimens sent in to the Division for examination and report. However, there are copies of accession lists containing fossils sent to the Division for permanent retention.

Series 5: Examination and Reports, and Outgoing Correspondence, 1911-1920, 1930-1940, 1946-May 1957, and undated.

The material from 1930-1940 is arranged chronologically. From 1946-1957, material is arranged (with the exception of a single folder which also contains 1946 material) chronologically by fiscal year (July-June) and alphabetically thereunder.

This material was labeled by the Division, "Examination and Reports," and though a good portion of this material contains correspondence pertaining to the identification of fossil specimens which had come in to the United States National Museum for just such a purpose, there is also outgoing correspondence pertaining to inquiries on vertebrate paleontology; acknowledgments for receipt of fossils given to the USNM; requests from universities for publications; requests by Smithsonian staff members to publish outside the Smithsonian; staff salaries and staff positions; requests for funds for the purchasing of fossil collections; requests for funds for attending professional meetings; plans and fund requests for research field trips; reports on field explorations and fossil collections made during the exploration; and annual report material. Important correspondents include Ray S. Bassler, David H. Dunkle, William F. Foshag, Charles Lewis Gazin, and Arthur Remington Kellogg.

Box 13

Box 13 of 19 Folder 25 Examination and Reports, 1911-1923, and undated

Box 13 of 19 Folders 26-31 Examination and Reports, 1913-1920

Box 14

Box 14 of 19 Folders 1-2 Examination and Reports, 1921-1923

Box 14 of 19 Folder 3 Examination and Reports, 1930-1940

Box 14 of 19 Folders 4-22 Examination and Reports, 1946 (A-W) to July 1949-June 1950 (N-R)

Box 15

Box 15 of 19 Folders 1-23 Examination and Reports, July 1949-June 1950 (S-V) to July 1952-June 1953 (D-G)

Box 16

Series 6: Article Drafts, Notes, Speeches, and Radio Talks. Arranged alphabetically by title.

The majority of the series contents was written by Charles W. Gilmore.

Box 18

- Box 18 of 19 Folder 6 Charles W. Gilmore. Alamosaurus (?). "Position of the Skeletal Parts as They Lay Embedded in the Ground;" Charles W. Gilmore. "Animal Terrors of Past Ages, Dinosaurs;" Charles W. Gilmore. "Ancient Frogs and Salamanders;" Charles W. Gilmore. "Birds From the Rocks." Radio talk, WRC, February 4, 2 drafts; Charles W. Gilmore. "Brachyceratops, The Smallest American Horned Dinosaur;" Charles W. Gilmore. "Ceratosaurus, A Flesh-Eating Dinosaur."
- Box 18 of 19 Folder 7 Oliver Perry Hay. "Charleston Fossils."
- Box 18 of 19 Folder 8 Charles W. Gilmore. "Collecting Fossil Footprints in Arizona;" Charles W. Gilmore. "Dimetrodon, The Extinct Fin-Backed Reptile." Also, another draft pertaining to Dimetrodon without title; Charles W. Gilmore. "The Dinosaur National Monument and its Fossils;" Charles W. Gilmore. "Dinosaurs." 3 drafts including one that was presented over radio station WJSV, July 31, 1941; Charles W. Gilmore. "Diplodocus, An Amphibious Dinosaur." 2 drafts.
- Box 18 of 19 Folder 9 Charles W. Gilmore. "Discovery of Extinct Buffaloes in Minnesota;" Charles W. Gilmore. "Extinct Monsters of North America."
- Box 18 of 19 Folder 10 Charles W. Gilmore. "Footprints of Unknown Vertebrate Animals in the Carboniferous and Permian of the Grand Canyon, Arizona;" Charles W. Gilmore. "A Fossil Bird With Teeth;" Charles W. Gilmore. "Fossil Birds;" Charles W. Gilmore. "Fossil Footprints Found in Texas;" Charles W. Gilmore. "Fossil Footprints From the Grand Canyon." Speech given in New Haven, Connecticut, December 1925; Charles W. Gilmore. "Fossil Footprints From the Grand Canyon. Abstract;" Charles W. Gilmore. "Fossil Footprints In Coconino (Permian) Sandstone From the Grand Canyon National Park, Arizona;" Charles W. Gilmore. "A Fossil Horned Rodent From Kansas."
- Box 18 of 19 Folder 11 Dr. Noble. "Fossil Lizards."
- Box 18 of 19 Folder 12 Charles W. Gilmore. "Fossil Tracks and Trails." Presented over radio station WCAP, March 27, 1925; Charles W. Gilmore. "Fossil Tracks from the Grand Canyon." Abstract for the Washington Academy of Sciences, April, 1927. Charles W. Gilmore. "Fossil Tracks from the Grand Canyon. Radio talk, May 11, 1927; Charles W. Gilmore. "Fossil Tracks from the Grand Canyon;" Charles W. Gilmore. "Fossil Tracks of the Grand Canyon." Paper given before the National Academy of Sciences, April 26, 1927; Charles W. Gilmore. "A Giant Fossil Fish;" Charles W. Gilmore. "James Williams Gidley."

- Box 18 of 19 Folder 13 Charles W. Gilmore. "Oliver Perry Hay;" Charles W. Gilmore. "A History of Dinosaurs(?)." A portion of the typed draft is missing; Charles W. Gilmore. "The Horned Dinosaurs;" Charles W. Gilmore. "Horned Dinosaurs."
- Box 18 of 19 Folder 14 Gerrit Smith Miller, Jr. "Mammalogy;" Charles W. Gilmore. "Marsh, A Pioneer of American Vertebrate Paleontology;" Charles W. Gilmore. Miscellaneous Material; Charles W. Gilmore. "A New Carnivorous Dinosaur from the Lance Formation of Montana."
- Box 18 of 19 Folder 15 Charles W. Gilmore. "A New Crocodylian From the Eocene of Utah;" Charles W. Gilmore. "New Fossil Lizards From the Upper Cretaceous of Utah;" Charles W. Gilmore. Notes: (1) "On the Spread Foot of the Mammals," by M. Westenhofer; (2) Ophidians.
- Box 18 of 19 Folder 16 Charles W. Gilmore. "Notes on Pteranodon With Description of a Few Species;" Charles W. Gilmore. "Notes on Recently Mounted Reptile Skeletons in the United States National Museum;" Charles W. Gilmore. "On the Osteology of the Extinct Marine Turtle;" Charles W. Gilmore. "On the Upper Cretaceous Dinosaur, Troodon Validus (Lambe)," presented for Gilmore by John A. Allan at the Royal Society of Canada, May, 1924; Charles W. Gilmore. "Paleontology."
- Box 18 of 19 Folder 17 Charles W. Gilmore. "On the Vertebrate Fauna of the Two Medicine Formation, Upper Cretaceous of Montana."
- Box 18 of 19 Folder 18 Charles W. Gilmore. "Sidney Clark Prentice;" Charles W. Gilmore. "Pseudo Fossils;" Charles W. Gilmore. "Preliminary Report on the Reptilian Fauna of the North Horn Formation in Central Utah;" Charles W. Gilmore. "Remarks on Grand Canyon Fossil Tracks;" Charles W. Gilmore. "Reptile Reconstruction in the U. S. National Museum."
- Box 19
- Box 19 of 19 Folder 1 Charles W. Gilmore. "Reptiles of the Past."
- Box 19 of 19 Folder 2 Charles W. Gilmore. Reptilian Fauna of the North Horn Formation of Central Utah. Part 1, "Osteology of Alamosaurus, a Sauropod Dinosaur from the Upper Cretaceous." Part 3, "Description of a New Species of the Ceratopsia." Part 4, "A Review of the Fauna."
- Box 19 of 19 Folder 3 Charles W. Gilmore. "Skeleton of a Baby Dinosaur;" Charles W. Gilmore. "Skin of the Mammoth." (2 drafts); Charles W. Gilmore. "Some New Dinosaur Restorations."
- Box 19 of 19 Folder 4 Charles W. Gilmore. "Stegosaurus, An Armored Dinosaur." Typewritten copy with photographs.

- Box 19 of 19 Folder 5 Charles W. Gilmore. "Stegosaurus, An Armored Dinosaur."
Handwritten draft (incomplete).
- Box 19 of 19 Folder 6 Charles W. Gilmore. "Stegosaurus, An Armored Dinosaur."
Unarranged portion of handwritten draft, and notes.
- Box 19 of 19 Folder 7 Charles W. Gilmore. "Charles H. Steinberg;" Charles W. Gilmore.
"Thescelosaurus, A Bird-Footed Dinosaur." 2 drafts; Charles W. Gilmore.
"Titanotheres;" Charles W. Gilmore. "Trachodon, The Duck-Billed Dinosaur."
- Box 19 of 19 Folder 8 Charles W. Gilmore. "Triceratops, A Horned Dinosaur;" Charles
W. Gilmore. "A History of the United States National Museum, Division of
Vertebrate Paleontology."
- Box 19 of 19 Folder 9 Charles W. Gilmore. "Vertebrate Paleontology, A History." 2 drafts.
