## Historical Note

On July 1, 1965 the Chesapeake Bay Center for Field Biology (CBCFB) was created to conduct research and promote education in ecosystem biology. CBCFB was established at Java Farm, a 368 acre tract of land located seven miles south of Annapolis, Maryland on the western shore of the Chesapeake Bay. Java Farm was bequeathed to the Smithsonian Institution by Robert Lee Forest in 1962. Adjoining property was purchased with funds contributed by private foundations, and the centers site eventually grew to 2,400 acres, including 14 miles of shoreline on the Rhode River.

From 1965 until 1969, CBCFB was an administrative unit of the Smithsonian Office of Ecology. In 1969, its name was changed to the Chesapeake Bay Center for Environmental Studies (CBCES), and it was placed under the administration of the newly created Office of Environmental Sciences. CBCES became an independent Smithsonian bureau in 1973, reporting to the Assistant Secretary for Science. Directors of CBCES (before 1969 CBCFB) have included Kyle R. Barbehenn, 1965-1968; Francis S. L. Williamson, 1968-1975; and J. Kevin Sullivan, Acting Director, 1975-1976 and Director, 1976- .

In February 1966, the Smithsonian joined in an agreement with the Johns Hopkins University and the University of Maryland to collaborate in biological research and education at CBCFB. In 1971 the three institutions joined with the Virginia Institute of Marine Sciences to form the Chesapeake Research Consortium (CRC) to "foster and facilitate research germane to the region of the Chesapeake Bay." CBCES became a major component of the CRC program.

---

## Descriptive Entry

These records document the history of CBCES and the development of its programs. Included are materials concerning the establishment of the Center; land acquisition, including files on foundations that

contributed funds for the purchase of property; facilities development; the cooperative agreement between the Smithsonian, the Johns Hopkins University and the University of Maryland for research at CBCES; the development and activities of the Chesapeake Research Consortium; research conducted by CBCES staff and visiting scientists; proposals for research at CBCES; CBCES projects including the Rhode River Watershed Program, the Rhode River Environmental Education Project, and the Poplar Island Erosion Control Study; relations with Smithsonian bureaus, government agencies, community groups, and research organizations; and environmental issues, especially those affecting the Chesapeake Bay. The records were created primarily by Francis S. L. Williamson during his tenure as Director of CBCES, 1968-1975. Also included are smaller amounts of records created by his predecessor, Kyle R. Barbehenn, 1965-1968, and by J. Kevin Sullivan as Assistant Director, 1971-1975, Acting Director, 1975-1976, and Director, 1976. Correspondence of Smithsonian administrators Philip C. Ritterbush, Helmut K. Buechner, and Irvin Eugene Wallen is also found in the records.

The records include incoming and outgoing correspondence, memoranda, proposals, reports, photographs, and publications.

---

## Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

### Subjects:

Conservation of natural resources -- Study and teaching

### Types of Materials:

Black-and-white photographs  
Manuscripts  
Photographs

### Names:

Barbehenn, Kyle R.  
Buechner, Helmut K. (Helmut Karl)  
Chesapeake Bay Center for Environmental Studies. Office of the Director  
Chesapeake Bay Center for Environmental Studies. Poplar Island Erosion Control Study  
Chesapeake Bay Center for Environmental Studies. Rhode River Environmental Education Project  
Chesapeake Bay Center for Environmental Studies. Rhode River Watershed Program  
Chesapeake Bay Center for Field Biology  
Chesapeake Research Consortium  
Johns Hopkins University  
Ritterbush, Philip C.  
Sullivan, J. Kevin  
University of Maryland at College Park  
Wallen, I. E. (Irvin Eugene), 1921-  
Williamson, Francis S. L.

---

## Container Listing

### Series 1: GENERAL CORRESPONDENCE, 1964-1975 AND UNDATED. ARRANGED ALPHABETICALLY.

Note: This collection division consists of incoming and outgoing correspondence and memoranda documenting the operation of CBCES (before 1969, CBCFB). The correspondence was primarily created by Francis S. L. Williamson in his capacity as Director of CBCES, 1968-1975. Also included is correspondence of his predecessor, Kyle R. Barbehenn, 1965-1968, and J. Kevin Sullivan during his service as Assistant Director, 1971-1975, Acting Director, 1975-1976, and Director, 1976. Correspondence of Smithsonian officials Philip C. Ritterbush, Helmut K. Buechner, and Irvin Eugene Wallen is found in small amounts and usually deals with the initial planning for CBCES.

## Series 2: ADMINISTRATIVE RECORDS, 1964-1976 AND UNDATED. ARRANGED ALPHABETICALLY.

Note: This collection division consists of records documenting the establishment, administration, and programs of CBCES (before 1969 CBCFB). The records include correspondence, memoranda, proposals, reports, photographs and publications primarily created by Francis S. L. Williamson during his tenure as Director, 1968-1975. Particularly well represented are records concerning land acquisition and foundations that contributed funds for the purchase of property; the development and programs of the Chesapeake Research Consortium; research conducted by CBCES staff and visiting scientists; CBCES projects including the Rhode River Environmental Education Project, the Rhode River Watershed Program, and the Poplar Island Erosion Control Study; and facilities development at CBCES.
